B. Providers

B1. Key terms

This section explains key terms you'll see in our *Provider and Pharmacy Directory*.

- **Providers** are health care professionals and support providers such as doctors, nurses, pharmacists, therapists, and other people who provide care and services. **Services** include medical care, supplies, prescription drugs, equipment and other services.
    - The term providers also includes facilities such as hospitals, clinics, and other places that provide medical services, medical equipment, and long-term services and supports.
    - Providers that are a part of our MCO's network are called network providers.

- **Network providers** are the providers that have contracted with us to provide services to Enrollees in our MCO. The providers in our network will bill us directly for care they give you. When you see a network provider, you will pay nothing for covered services.
- A **Primary Care Physician** (PCP) is provider who gives you routine health care. Your PCP will keep your medical records and get to know your health needs over time. Your PCP may be a:
    - Family doctor or nurse practitioner,
    - Internal Medicine doctor or nurse practitioner, or
    - Pediatrician
- A **Primary Dental Provider** (PDP) is a dentist that performs many important oral health services, including routine care. Just like your Primary Care Provider (PCP) provides wellness checks, your dentist performs routine checkups to take care of your teeth and gums. It is recommended that you schedule a dental checkup every 6 months.
- **Specialists** are doctors who provide health care services for a specific disease or part of the body. There are many kinds of specialists. Here are a few examples:
    - Oncologists care for patients with cancer.
    - Cardiologists care for patients with heart conditions.
    - Orthopedists care for patients with certain bone, joint, or muscle conditions.

B2. How to find HSCSN providers in your area

You can use this directory to find providers in your area by checking the address and zip code listed. You can also use the searchable directory on our website www.hscsnhealthplan.org to find providers close to your home, work, or school.

B3. List of network providers

This Directory of HSCSN's network providers contains:

- **Health care professionals** including Primary Care Physicians (PCPs), Specialists, Mental and Behavioral Health Professionals and Therapists;
- **Facilities** including hospitals, nursing facilities, mental health facilities, and substance abuse treatment centers; and

- **Support providers** including opticians, home nursing agencies, medical equipment and supply companies, and early intervention programs.

Providers are listed in alphabetical order by last name. In addition to contact information, provider listings also include specialties and skills, for example, such as languages spoken or completion of cultural competence training.

> **Cultural competence training** is additional instruction for our health care providers that helps them better understand your background, values, and beliefs to adapt services to meet your social, cultural, and language needs.

C. HSCSN's network providers

You may get services from any of the providers on this list. HSCSN will pay for the care you receive when you visit one of our doctors or other health care providers. A doctor or provider who is not in our network is called an "out-of-network" provider.

You may have to pay for the care you receive if you go to an out-of-network:

- Doctor
- Hospital
- Lab

If you receive prior authorization from HSCSN you will not have to pay. This means that you need to ask us first, and then we will tell you usually in writing.

You must get approval before using the following services:

- Applied Behavior Analysis (ABA) Therapy
- Outpatient Rehab Therapies
  - Speech-Language Physical Therapy
  - Occupational Therapy
- Home Health Care Services
  - Skilled Nursing (visits and shifts of nursing)
  - Personal Care Aide Services/Home Health Aides

- HSCSN Enrollees must use network pharmacies to get prescription drugs.
    - You must use network pharmacies except in emergency or urgent care situations.
    - If you go to an out-of-network pharmacy for prescriptions when it is not an emergency, you will have to pay out of pocket for the service. Read the HSCSN *Enrollee Handbook* for more information.

- Home infusion pharmacies prepare prescription drugs that are given through a vein, within a muscle, or in another non-oral way by a trained provider in your home.
- Long-term care (LTC) pharmacies serve residents of long-term care facilities, such as nursing homes.
- Enrollees taking medicine to treat HIV/AIDS must fill prescriptions through the D.C. Department of Health's AIDS Drug Assistance Program (ADAP). The full list of pharmacies is available at www.dchealth.dc.gov/DC-ADAP; click **D.C. ADAP Pharmacy Directory**. You are not required to continue going to the same pharmacy to fill your prescriptions.
