B. Providers

B1. Key terms

This section explains key terms you'll see in our *Provider and Pharmacy Directory*.

- Providers are health care professionals and support providers such as doctors, nurses, pharmacists, therapists, and other people who provide care and services.
 Services include medical care, supplies, prescription drugs, equipment and other services.
 - The term providers also includes facilities such as hospitals, clinics, and other places that provide medical services, medical equipment, and long-term services and supports.
 - Providers that are a part of our MCO's network are called network providers.

- Network providers are the providers that have contracted with us to provide services to Enrollees in our MCO. The providers in our network will bill us directly for care they give you. When you see a network provider, you will pay nothing for covered services.
- A Primary Care Physician (PCP) is provider who gives you routine health care.
 Your PCP will keep your medical records and get to know your health needs over time.
 Your PCP may be a:
 - o Family doctor or nurse practitioner,
 - Internal Medicine doctor or nurse practitioner, or
 - Pediatrician
- A Primary Dental Provider (PDP) is a dentist that performs many important oral health services, including routine care. Just like your Primary Care Provider (PCP) provides wellness checks, your dentist performs routine checkups to take care of your teeth and gums. It is recommended that you schedule a dental checkup every 6 months.
- Specialists are doctors who provide health care services for a specific disease or part of the body. There are many kinds of specialists. Here are a few examples:
 - Oncologists care for patients with cancer.
 - Cardiologists care for patients with heart conditions.
 - Orthopedists care for patients with certain bone, joint, or muscle conditions.

B2. How to find HSCSN providers in your area

You can use this directory to find providers in your area by checking the address and zip code listed. You can also use the searchable directory on our website www.hscsnhealthplan.org to find providers close to your home, work, or school.

B3. List of network providers

This Directory of HSCSN's network providers contains:

- **Facilities** including hospitals, nursing facilities, mental health facilities, and substance abuse treatment centers; and

Providers are listed in alphabetical order by last name. In addition to contact information, provider listings also include specialties and skills, for example, such as languages spoken or completion of cultural competence training.

Cultural competence training is additional instruction for our health care providers that helps them better understand your background, values, and beliefs to adapt services to meet your social, cultural, and language needs.

C. HSCSN's network providers

You may get services from any of the providers on this list. HSCSN will pay for the care you receive when you visit one of our doctors or other health care providers. A doctor or provider who is not in our network is called an "out-of-network" provider.

You may have to pay for the care you receive if you go to an out-of-network:

- Doctor
- Hospital
- Lab

If you receive prior authorization from HSCSN you will not have to pay. This means that you need to ask us first, and then we will tell you usually in writing.

You <u>must get</u> approval before using the following services:

- Applied Behavior Analysis (ABA) Therapy
- Outpatient Rehab Therapies
